

Luxury Motorcoach and Cabin Resort

Motorcoach Pad Sites

An example of a motorcoach pad site in the Resort area. This provides guests with many opportunities to turn their pad site into their own oasis for the duration of their stay.

Motorcoach Vehicles

This is an example of a motorcoach that might be seen on Resort property. These are luxury vehicles with full amenities and are a perfect fit for a luxury outdoor resort.

Cabins

This is one example of the potential style of cabin considered for the Resort. Guests will be immersed in nature with a home away from home level of amenities, as the cabins and nearby attractions and services will provide them with anything they might need or want to do during their stay.

Cabins

This is another example of the potential style of cabin considered for the Resort but organized in a cluster, similar to how they could be implemented on the Resort.

Community Solar Facility

Sugar Hill Project | Clifton Park, NY

The photo above represents a 5MWac Community Solar Project developed by USLE in Clifton Park, NY, and represents what the proposed solar array area might look like. Like the facility proposed in the PUD, this project abuts a utility transmission corridor.

Resource Protection Area

Multi-Use Trail

An example of the multi-use trail proposed in the resource protection area. The trail will consist of natural materials to improve navigation and enjoyment of the existing resource.

Seating Areas

An example of the seating areas proposed in the resource protection area. The benches and other trail friendly seating areas will provide trail goers with a safe and welcoming environment to take a break.
