

A special workshop of the Town of Moreau Recreation Commission Meeting was held on November 22, 2010 in the Town of Moreau Office Building, 61 Hudson Street, South Glens Falls, New York for the purpose of discussing a pole barn for storage at the Moreau Rec. Park.

The meeting began at 7:00 p.m.

Recreation Commission Members present:

Garth Baker, Elizabeth Lanphear, John Farrell, and Bob Vittengl

Also present: Town Board Members Gina La Clair and Todd Kusnierz and rec. employee Nick Mattison

There was discussion about building a storage facility in the town park to secure equipment inside, out of the weather and a fenced in area for materials and other town equipment, and an area by the volleyball courts will be used as it will be out of sight and in the center of park and protected by trees. It has short access for power if necessary, and has rest rooms are close by.

Sizes were discussed and a 32 ft. wide by 50 ft. long building with 12 ft. interior height, with wide sliding barn doors was agreed upon. This would allow for further expansion if necessary.

Bob Vittengl made the resolution to build this storage facility in the park and it was seconded by Garth Baker and was approved by all board members present. Motion will be forwarded to town board for action.

Short discussion followed as to the recreation commission member's feelings toward some alternative programming, such as, geo-caching, arts and crafts, etc. The commission members were interested in pursuing ideas and leaders for some of these new programs. Gina and Nick will be working on ideas for the next recreation commission meeting on 12/6/10.

Meeting ended 8:30
