

Attention swimming pool owners in Moreau and South Glens Falls

The Town of Moreau Consolidated Board of Health/Town of Moreau Building/Code Enforcement Department/**Village of South Glens Falls** Building/Code enforcement Department **seek your help.**

Over the course of time it has become apparent that some swimming pools in the Town and Village are no longer being utilized and have not been closed up properly and have been left in a state of disrepair.

In some cases there are no covers on the swimming pools and water left in them has become stagnant, creating a health and safety issue for surrounding properties.

Stagnant, standing water becomes a breeding ground for mosquitoes. Not only are mosquitoes a nuisance, they can carry the West Nile Virus.

Please help us to make your property a safe, healthy environment. You can do this by opening and closing your pools properly and by chlorinating and maintaining your pool regularly.

The Town of Moreau has mosquito dunks available, free of charge, which can be put in standing water on pool covers that will kill mosquito larvae and prevent mosquitoes from developing. Village and Town Residents can obtain free mosquito dunks at the Moreau Town Clerk's Office, 351 Reynolds Road, Moreau, New York. **Your cooperation will be appreciated.**
