He passed out packets to the Town Board and Town Clerk that are for in home disposal of drugs that aren't needed. He recited dates for drug take back days, with the next date being July 29th in Halfmoon and then on August 26th at the Wilton Fire Department. He stated that they don't want to lose track of prevention and asked if they could put up banners within the Town. He is also looking for locations to distribute lock boxes. The Supervisor asked Mr. Norton if they've considered alternatives and Mr. Norton replied that the home disposal is an alternative but some people have pounds of drugs to dispose of. It was stated that the South Glens Falls Police Department will be hosting a drop off location in the fall. Mr. Norton stated that the drop boxes have to be inside a building and are monitored 24/7. Councilman VanTassel asked how large the banners would be and Mr. Norton replied 120 sq. ft. Councilman Kusnierz stated that he would like to see one at the Recreation Park, the Beach and possibly at Town Hall and mentioned that this is a statewide crisis. Mr. Norton stated that they are looking for employees to hand out lock boxes. He mentioned that an application would need to be completed prior to handing them out. Councilman Kusnierz asked the Town Clerk if she wouldn't mind handing out the applications from her office. The Town Clerk had no objection to this request. It was the consensus of the Board that the lock boxes themselves should come directly from the Coalition. Mr. Norton stated that it costs the coalition \$200.00 per ton to dispose of the drugs in the drop boxes and \$600.00 if they go outside of the program. He asked the Town Board for support of \$200-\$400 to keep the program active. He also stated that they will be asking the Village as well. He stated that he didn't need an answer tonight and asked the Board to consider his request. Councilman VanTassel asked Mr. Norton to contact the Supervisor's office for the placement of his banners.

The Highway Superintendent stated that the State cut back the corner of Rte. 9 and Butler Road so that people could see better to pull out. He stated that caused part of the sand problem. Chris Corlew spoke on behalf of Jack Hills and thanked the Town Board for donating the turf for the Legion Baseball field. He stated that they are working on phase II of the plan for the field, which includes a new backstop. He stated that with the amount of activity and for safety purposes they need a new backstop and commented that the current one doesn't stop anything. They would like to put up one similar to what the girls' softball fields have. Mr. Corlew stated that they already provided Pete Corlew with two quotes and are waiting on a third from Stanton Fence. He stated that they aren't looking for the Town to pay the full cost, they are looking for a split. They have some funds of their own and will also be looking to sell sponsorships to put on the fences. If they take down the old fence themselves, it would save \$800.00. Councilman Kusnierz stated that they're nearing the budget process and that having this information up front is helpful. Mr. Corlew stated that the smallest quote they have so far is \$20,500.00

- Field Use Fees, Rules & Regulations, Field Use Policy, Field Refund Request Form

There was discussion relating to the above forms. The Field Use Fees had an interpreted fee for use of the concession stand for either \$100.00 per day or \$200.00 for a weekend. It was relayed that some of the tournaments being held only use the stand for an hour or so on Friday and for a minimal time, if need be, on Sunday. The Board stated that the fee had been set at \$100.00 per day, regardless of how long the concession stand would be used. They wanted the fee to remain as such and that it could be re-visited at budget time.

With regard to the Rules and Regulations, it was agreed that the proposed regulations regarding Easy Ups be removed from the language. Councilman Kusnierz stated that there are people who use the Park that need to get out of the sun and he didn't want to put restrictions on where they should put them. He also asked that the second sentence relating to Dogs be stricken. He stated that the first sentence explains where they can't be and therefore, didn't feel it necessary to tell people where they can be.

Andre Delvaux addressed the Town Board with regard to their Critical Facility Expansion, which is in response to a 44% increase in call volume, mainly due to an increase in the adult population within the Town. He stated that they were advised by Assemblywoman Woerner and Michael Yevoli, Regional Director of the Capital Region for Empire State Development, to apply for the Community Development Block Grant (CDBG) category of the NYS EDC Consolidated Funding Application (CFA). As they wouldn't be eligible to apply for the grant on their own, he was asking the Town to be the sponsor of the application. He stated that the Town wouldn't be responsible for the writing of the application, which is free to apply. If awarded, the funds could be up to \$900,000.00. Also, if awarded, the Town would receive 10-15% of the award amount toward the grant administration. He stated that the application deadline is Friday, July 28, 2017. Mr. Delvaux stated that they need permission from the Town to proceed and if the Town Board is agreeable, they would need to provide a contact person that would be able to provide information needed on the application. LANDING PAD – BRUCE LANT

Bruce Lant presented to the Board a set of specifications drawn up by Charlie Robinson. He stated that the gentleman has 28 years of experience creating landing zones. Mr. Lant stated that since he was here last, the specifications had been changed so that they wouldn't need a ramp from the Fire Department parking lot and to more effectively utilize the area between the two buildings. He provided the FAA specifications needed for the size of the pad and the estimated cost of supplies, which totaled \$6,328.00. Mr. Lant mentioned that he had been approached by two businessmen who agreed to fund the cost of the materials. The Supervisor asked Mr. Lant if he had discussed the paving project with the Highway Superintendent and Mr. Lant replied that he assumed the Highway Department would do the paving. Paul Joseph was in attendance and stated that he would be able to pave in the fall if the Board agrees with the project and asks him to do the work. Councilman Prendergast asked Mr. Lant if they could recognize the donors and Mr. Lant replied that Phil Viger from Adirondack Tree Surgeons and Bob Perkins from Harrison Avenue Self Storage were the two that approached him to donate the supplies for the pad. Councilman Prendergast stated that the community is very thankful for their support. Mr. Lant stated that the only area of expense will be the wind sock light, which would cost approximately \$350.00, 3 red warning lights and some low profile lighting. He thought that it might be around \$1,000.00 when all done. The Supervisor asked if the lights would be noise activated and Mr. Lant replied no. Councilman Kusnierz stated that it would be set up so that the pilots would have the capability of turning the lights on. Councilman VanTassel asked how close he was to having final numbers.
