Nortrax	2103 John Deere 624K	\$128,970.00

Monroe Tractor	2013 Case 721F Z-Bar	\$133,572.00
A. Montano Co.	Hyundai HL757-9	\$139,771.92

Note: These prices include the trade-in of the Town's 1995 Dresser 515CH Wheel Loader.

~~Paul Joseph recommends the purchase of the wheel loader from Milton Cat. It offers better fuel economy and Milton Cat offered a better trade and they offered a one year warranty on all parts.~~

**Supervisor Jenkins stated that it was the recommendation of the highway superintendent to go with the \$129,013.00, which is \$43.00 higher. Basically the difference is the Nortrax is a John Deere and the other vehicle is a CAT that has a better trade in, gets better fuel mileage and it has a quote of one year warranty for all parts that nobody else does and there is a difference of \$43.00 and that is what he would like us to approve.**

**Councilman Prendergast asked if it was budgeted and Paul Joseph replied yes and that is with the trade-in of the 1995 loader and they are giving us high trade for it.**

#### **WATER DEPARTMENT REQUESTS**

Jesse Fish, Water Superintendent, asked the board members to consider purchasing radio read water meters for Water District 2 at a price of \$137,000.00. He also asked that the board members consider hiring a person to work in the water department, whose sole purpose would be to change out the water meters in Water District 2, during the months of May through September or until all the water meters in Water District 2 are changed out. Right now he can purchase 430 radio read meters at a cost of \$177.00 each vs. \$192.00 each the normal price. Any subsequent purchase of radio read water meters would be at the price of \$192.00 each. He explained how the meters that are over 10 years old need to be replaced and how difficult it is to get inside homes to read meters and how the clerks in the Town Clerk's Office are scrambling at the last minute to obtain

A regular meeting of the Town Board of the Town of Moreau was held on March 26, 2013 in the Town of Moreau Office Building, 61 Hudson Street, South Glens Falls, New York.

readings from water users. Jesse Fish said he would get information to the board in two to three days regarding the purchase of the radio read meters and he hoped the board would move forward with authorizing the purchase of the meters at the next meeting.

### **RECREATION DEPARTMENT REQUESTS**

Supervisor Jenkins referred to a schedule of field use fees that were adopted by the Town Board and he recited a couple of the fees. He asked Erin Trombley, Recreation Director, if she had a copy of the schedule and Erin acknowledged that she didn't. The Town Clerk advised that she gave her a copy when she was first hired, but would provide her with another copy. Supervisor Jenkins said he would have Terry provide her with a copy.

### **SOCIAL MEDIA POLICY**

Attorney Buettner stated that she sent an e-mail to the Town Board yesterday. When it was first introduced it was a social media policy that was drafted for the employees and then it morphed into a social media policy for the employees and something to do with the facebook page and the town's website. That would change the draft policy significantly to add who is in charge of the site, is it for all the departments, is the town going to have its own facebook page. There are a lot of questions she has and that she needs answers to. She knows it came up because of the rec. department facebook page. She asked if the board wanted to create a town-wide social networking sites policy. She gave the board a copy of a law from the Town of Malta entitled "Website and Social Media Policies". She doesn't know where the board wants to go from here. The draft law before the board addresses employees only and it doesn't address the questions that Erin is raising.

Supervisor Jenkins said "we need limited control over who can do it, but not tell them what they can do only if he reads something he doesn't like". He said "they are looking for good judgment and we should limit who does it". He said "that Erin should be limited unless Gina is involved and she wants to do it, but we have to limit other employees so we don't have too many". Everything should go through Erin and/or the committee.

Discussion followed on how facebook works and who can access it and how posts are made to the site.

Erin Trombley explained the need for a facebook page. Field conditions, cancellations and postponements can be made on the fly and people can have access to updates right away. We can also promote our programs and photos. She mentioned a photo release would be obtained before pictures of children are taken. A release could be put on the registration forms. It is a practical marketing tool.

Councilwoman LeClair said it allows Erin access without having to go through certain areas of the town's website, which takes more time. She stated that there was a facebook page for the community garden. It allows more interaction.

Discussion followed again on facebook and how it works.

Councilman Vittengl stated that it is a good way to notify people about registrations for programs and cancellations, but he wants to keep it simple as to what is going on in the park and let it evolve from there and not too much interaction, because if someone posts something negative then it also goes to all of their friends on facebook.

Erin stated that it could be removed and she explained about hidden comments and how they get filtered by facebook.

Councilman Vittengl asked if it could be deleted before it goes on the page and Erin replied yes, if it is filtered that way.

Councilman Vittengl asked what happens if it doesn't get filtered, would it be removed immediately and Erin replied yes, she is on facebook all the time.

A regular meeting of the Town Board of the Town of Moreau was held on March 26, 2013 in the Town of Moreau Office Building, 61 Hudson Street, South Glens Falls, New York.

Erin stated that anybody who is authorized as a user can delete things that are inappropriate or obsolete. She stated that she posted a LaCrosse flyer and registration sheet on facebook and said they could also find it on the town's website.

Attorney Buettner asked if the board wanted a policy about creating official pages, for all departments, that department heads would be in charge of. She stated that if there is a town sponsored facebook page then it is subject to FOIL and that has to be up there.

Supervisor Jenkins stated that most departments don't reach out to the public very often. He used Peggy Jenkins, Assessor, as an example. She can go to the town's website and post information about the new STAR program and how to re-register. Paul Joseph, Highway Superintendent, uses the media to get information out there about highway issues. Supervisor Jenkins said that as far as his office is concerned, he isn't going to be talking to the public about anything they are doing and neither would the Building Department. He thinks it is a very special issue for recreation.

Attorney Buettner asked if the board wanted the social media policy to be limited to the recreation department or does the board want her to draft a broader law that would address the future.

Supervisor Jenkins said it should be limited to approval by this board and if something is posted without their approval they will be instructed to remove it.

Councilman Prendergast stated that he agreed with the Supervisor in that he didn't see other departments using it, but the wording should be general.

Attorney Buettner asked if they wanted Erin to be in charge of it and authorized to do it and the Town Board would have to authorize anybody else to use it. The answer was yes.

Councilwoman LeClair stated that department heads should be responsible and accountable. That is why they put them in the position as department head.

Erin Trombley suggested that the full-time grounds keeper be allowed access, because he is on the fields during the day assessing the conditions and he should be able to post the conditions of the fields.

Supervisor Jenkins said they have been doing that previously anyway.

Councilman Prendergast stated that in general, for the town, he doesn't think there is a policy about what employees are allowed and not allowed to do on the computer during working hours and he thinks we need one.

**DISCUSS CHANGING CONTRACT 5 FOR WATER DISTRICT 1 EXTENSION 3 PROJECT**

A math error was discovered in the low bidder's bid, R. J. Kerr, for Contract 5 the Water District 1 Extension 3 project (the water distribution system). This math error resulted in an increase in the bid price by \$5,020.00. The original bid amount was \$256,060.00 and the amended amount would be \$261,080.00.

Councilman Prendergast asked how this increase compared to the next lowest bidder and Supervisor Jenkins stated that they are still the lowest bidder by quite a bit.

A motion was made by Councilman Prendergast and seconded by Councilman Vittengl authorizing an amendment to the bid amount from R. J. Kerr from \$256,060.00 up to \$261,080.00 and increase of \$5,020.00 for Contract 5 – Water District 1 Extension 3 project.

**DISCUSS MOVING PLANS FROM CURRENT TOWN HALL TO NEW MUNICIPAL CENTER COMPLEX**

Supervisor Jenkins said he would like to form a moving committee and it would include the Town Clerk, because she is the records management officer and she should supervise how the records are handled during the move and he asked for two volunteers from the Town Board. Councilwoman LeClair said she would be willing to help and Councilman Prendergast said he would help, if he was available at the time.

A regular meeting of the Town Board of the Town of Moreau was held on March 26, 2013 in the Town of Moreau Office Building, 61 Hudson Street, South Glens Falls, New York.

Councilwoman LeClair said they should price a U-Haul truck and they need to get quotes on wiring for the computers.

Supervisor Jenkins replied that he is getting quotes now from IT firms regarding wiring and computers. He didn't think a U-Haul was a great idea. He said there are a lot of heavy items to move and he doesn't want anybody to hurt their back. He thought it would be better to hire people who move people for a living. He said it wouldn't be as expensive as they think.

Joe Patricke interjected by saying that timing is everything. He said people won't accept that we are just shutting down to move.

Councilwoman LeClair asked about a phone system.

Supervisor Jenkins said he was working on it. The wiring for phones is being done as part of the construction process and Joe Patricke interjected saying that he met with Verizon today about service to the new building.

**DISCUSS AGREEMENT FOR LEGAL SERVICES WITH BARTLETT, PONTIFF, STEWART & RHODES RE: WATER DISTRICT 1 EXTENSION 2 & 3**

Supervisor Jenkins stated that the agreement would allow the attorneys to work within the confines of the local bond counsel numbers that were approved and the numbers aren't going to change. There could be some minor expenses for publishing and things like that. It won't be significant.

Attorney Buettner stated that they have to stay under \$25,000.00 for the MWBE so; it is going to be \$24,999.00. She stated that there was an amended bond resolution done a few months ago and that was above and beyond their prior legal services agreement, because extension 3 was added on. Their prior legal services agreement was for extension 2 only. She said that the EFC is requiring this for Water District 1 Extensions 2 and 3.

A motion was made by Councilman Prendergast and seconded by Councilwoman LeClair authorizing the Supervisor to sign the letter of agreement with Bartlett, Pontiff, Stewart & Rhodes, P.C. in the amount of \$24,999.00 amending the agreement for legal services between the Town of Moreau and Bartlett, Pontiff, Stewart & Rhodes, P.C. for the 2012 and 2013 years in regards to Water District 1 Extensions 2 and 3.

Councilwoman LeClair stated that an employee resigned from the transfer station. She also said that last year they priced bags and the price was about 30 to 40 cents per bag plus shipping and that would be a lot of money to pass on to the users of the transfer station. She reported that they looked into moving a building and Councilman Vittengl interjected by saying "to make it more efficient". Councilwoman LeClair stated there was discussion last fall about enclosing the end of the building and the concern was the smell. They have since found a new product to spray down the compactor with and it dramatically reduced the smell. She stated that we need to take care of the bird droppings up in the rafters. She called two places for a quote and one has called Terry back and she is trying to find a third quote. She said it isn't as simple as hosing it down. Once it is cleaned then we need to close it in so the birds don't get back in.

Supervisor Jenkins stated that Fran advised him that the day of the snow storm we took in \$66.00 at the transfer station and the question is should we consider closing the transfer station on snow days when the schools are closed. He said it is something for the board to think about.
